City of Summersville; Notice of Availability of Final Environmental Assessment

October 17, 1996.

A final environmental assessment (FEA) is available for public review. The FEA is for an application an amendment to the license for the Summersville Hydroelectric Project (FERC No. 10813) to: (1) substitute two turbine/generator units for the four units in the license; (2) revise the project boundary to include 9.9 miles of new transmission line in place of the licensed 8-mile transmission line; and (3) delete license article 303. The project is located on the Gauley River in Nicholas County, West Virginia. The FEA finds that approval of the application would not constitute a major federal action significantly affecting the quality of the human environment.

The FEA was written by staff in the Office of Hydropower Licensing, Federal Energy Regulatory Commission. Copies of the EA can be viewed at the Commission's Reference and Information Center, Room 1C-1, 888 First Street, N.E., Washington, D.C., 20426. Copies can also be obtained by calling the project manager, Heather Campbell at (202) 219-3097.
